

FINE SERVICE OF SAN PEDRO

Returning Conductors Speak of
Splendor of the Equipment.

WILL BE USED TO SALT LAKE

EXPERIENCES IN THE LAND OF
SUNRISE AND SUNSET.

After pursuing pleasure from sunset to sunrise and back again, the members of the Order of Railway Conductors arrived in the city yesterday morning with happy memories of an exceptionally delightful trip. There were ninety-two people in the party, and in their journey over the continent they covered 8,452 miles. At every place where a few hours were spent they found arrangements completed for more entertainment than they could take advantage of. This was particularly true of the larger places.

The party left this city on May 6 and was gone thirty-two days. All the roads over which they passed gave their train a special schedule, excepting on the Southern Pacific, which made the conductors' special the second section of its fast trains in passing over the system. The men were received with open-armed hospitality wherever they went, but they are unanimous in saying that the climax was reached when they arrived in Los Angeles. They were met there by J. Ross Clark, second vice president of the San Pedro road, who took the party in charge and went to an extreme in showing the conductors every attention that could add to their comfort and enjoyment.

At San Pedro Harbor. The party was taken down to San Pedro harbor, rides were enjoyed on the water and side trips were made to points of interest about the famous winter resort. The members speak in the highest terms of the San Pedro equipment. They claim that on their entire journey they saw nothing to compare with it.

"Their trains," said one of the men, "are the finest in the country. The equipment throughout is simply elegant, and I doubt if there is a road anywhere that can surpass their coaches in general appearance and in elegance of appointment. What is said of the coaches is true of the locomotives and the rest of the equipment. The locomotives are the finest that can be turned out by American works, and this means that they are the best in the world."

"Mr. Clark told us," continued the speaker, "that these magnificent trains would be running into Salt Lake from the coast just as soon as the connections can be made. It is very evident that the San Pedro is going to make the magnitude of its trains a drawing card."

The party arrived in this city at 10:35, and with one exception was on time everywhere.

CHIEF CLERK ARRIVES.
San Pedro Offices May Be Finished by Next Week.

It was hoped that by putting a larger force of men at work on the offices to be occupied by the San Pedro road in the Deseret News building annex, the work could be completed this week. It is possible that some of the offices will be ready for occupancy by the end of next week. The men are directing their attention to the offices that will be needed immediately, and the other offices will be finished up afterwards.

R. E. Wells, the general manager of the company, is having his hands full, and yesterday spent his time between several offices where he has been called to transact. L. A. Monroe, chief clerk of the traffic department, arrived in the city yesterday morning and is registered at the Kenyon. He will remain here for several weeks to assist in getting the work straightened out at this end. T. C. Peck, the assistant general passenger agent, has returned to Los Angeles to look after the work in E. W. Gillett's office.

Shops at Ogden.
Work on the Southern Pacific shops at Ogden is to be commenced at once. The work has been let to the American Bridge company of this city and of which H. J. Burr is the manager. The new building will be 120x314 feet. Between 350 and 400 men will be employed when the shops are completed. The work will require several months and will be pushed, an extra force of men being engaged for the work.

Bound For South Africa.
Ten tickets were sold at the Rio Grande office yesterday to parties bound for Cape Town, South Africa. The men are Finlanders and on the trip they will go about as far south as water can carry them. They have promise of good wages in the mines, where they have friends and relatives, who have urged them to come.

Tax on Babies.
Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. 25c at Z. C. M. I. Drug Dept.

TWO YEARS IN PRISON

William H. Burton Sentenced For
Taking Money For National
Bank of the Republic.

Two years in the state penitentiary was the sentence which Judge C. W. Morse yesterday morning gave William H. Burton, jr. For about six months previous to April 6 he was employed as a stenographer in the National Bank of the Republic. It was charged that he abstracted a sack of coin from the vaults of the bank on that date containing \$500.

He pleaded guilty to the charge of grand larceny and asked the court to be lenient with him. Burton stated to the court that this was the first offense of which he had ever been convicted. He could give no legitimate reason for taking the money.

After the young man had pleaded guilty, District Attorney Dennis C. Eichnor reviewed the case. He recalled the fact that Burton had been a resident of Salt Lake City but a few months; that he came from St. Anthony, Ida. He brought to the attention of the court the fact that Burton had used \$225 of the amount stolen to purchase a horse and buggy; that the bank had been reimbursed to that extent, and that a small portion of the remainder of the \$500 had been turned over to the bank by Burton.

After taking those facts into consideration, Judge Morse decided that two years in the penitentiary was a sufficient punishment for the crime, and indicated that sentence.

ARRAIGNED IN COURT.

Judge Morse Has a Batch of Prisoners Before Him.

The absence of a Greek and Chinese interpreter in Judge C. W. Morse's court yesterday prevented the arraignment of John Hong and Charles Smyrniote, both of whom are charged with assault with deadly weapons. As neither could speak the English language, their cases were postponed until interpreters could be secured.

Arthur Baker pleaded guilty to two charges of housebreaking, and was given a year in the penitentiary, six months on each count. Dan Murray and LeRoy Demont, accused of being accomplices of Baker, were released upon their own recognizances.

Upon the motion of District Attorney Eichnor, the case against William Gayler, charged with burglary, was dismissed on the ground that he is dead. E. J. Richardson was released upon his own recognizance. He was charged with an assault with a deadly weapon. The other prisoners arraigned were: Marcellus Olsen, assault, committed in this city on May 12 upon the person of Julia Hansen; John Hill and Dan McCarthy, charged with burglarizing the store of the Brubaker, Campbell Hardware company at 12 West Third South street on May 20; George Goodwin, colored, charged with burglarizing F. W. Beecher's store at 15 Commercial street on April 27; Matt E. Johnson, charged with burglarizing the room of Andrew Dahlstrom at Bingham on May 23.

Daily Reporter Sued.
The Daily Reporter company was made the defendant in a \$3,000 libel suit filed yesterday in the district court by C. A. Nichols. He alleges that at about the time of the election of a delegate from the local typographical union to the national convention at Washington, D. C., the company defeated him through the circulation of a postal card upon which was printed the fact that he had owed the company \$34.25 for printing since 1894, and calling attention to the honesty of Jake Bosch, who was elected as delegate.

Payne Case Monday.
The Dr. E. S. Payne case will be called in the criminal division of the district court Monday morning at 10 o'clock before Judge Morse. He is charged with causing the death of Miss Anna D. Hill in his office on the afternoon of Dec. 29, 1902. A special venire of twenty names was yesterday drawn by Judge T. D. Lewis. From them it is hoped to secure a jury. The venire is as follows: B. B. Quinn, W. D. Callister, B. F. Snyder, John J. Judson, Henry James, Brigham T. Cannon, Andrew E. Busby, Jackson Jones, T. J. Everitt, James H. Sanders, Charles T. Davis, Edwin L. Lacey, James R. Hardman, William Wood, Jr., George E. Chandler, W. O. Nebold, William R. Watson, Alfred W. Phillips, David Wilkin and Alma W. Timpson.

Suits For Divorce.
Two suits for divorce were yesterday filed with the clerk of the district court. Merea M. L. Bles sues Joseph S. Bles on the ground of desertion. They were married in this city on April 22, 1900. Susan D. Winward wants a legal separation from Alexander Winward on statutory grounds. They were married in this city on Nov. 7, 1882.

THREE SMALLPOX CASES.

That Number Yesterday Made Total of Thirty-six in City.
Three cases of smallpox were yesterday reported to the city board of health, all the patients being in one family. They are J. E. Bean, aged 44; J. J. Bean, 2 months, and Horace Bean, aged 5 years, who reside at 72 South Eighth East street.

For the week ending June 6 there were ten cases reported to the board of health, the same number as the week before and six less than for the same week of last year. The births reported for the same period were one less than for the preceding week and five fewer than for the corresponding week of 1902, there being fourteen males and nine females.

Six cases of scarlet fever were reported during the week and four were discharged, leaving eleven cases in detention, as against nine for the previous week and fifty-one for the same week last year.

Three cases of diphtheria were reported and eight were released, leaving the same number in quarantine as for the corresponding week of last year, and half the number in detention at the close of the last report, when ten cases were in the city.

At the close of last report there were seventeen cases of smallpox in quarantine. Twenty-six cases developed during the week, and seven cases having been discharged, left thirty-six cases in quarantine, as compared with eleven for the corresponding week of 1902.
